Fencing

First Choice Solutions for Architects, Specifiers & Contractors

Procter Fencing Service

Dependable nationwide service, providing high quality fencing products to specifiers, contractors and end users.

Our Company

Established in 1740, Procter Bros. is still a family owned company. Today's business is split into four divisions which specialise in security fencing, gates and railings, concrete products, machine guards and pest control products. The security fencing division, which has been established for over sixty years, is one of the UK's leading perimeter security specialists, with an impressive track record including major contracts to secure wartime airfields, gates and railings around Kensington Palace, complete renewal of the perimeter fencing around Bristol Airport and, more recently, numerous major projects on new schools and out of town retail sites. See www.fencing-systems.co.uk

Why Using Procter Fencing Systems Makes Sense

Procter Fencing Systems has unrivalled expertise in installing security fencing and gates, combining the best traditional skills with modern technology to solve today's perimeter security problems. Our manufacturing department can produce a very wide range of hinged and sliding access gates, simple or decorative railings and other steel fencing products. What's more, we combine our manufacturing and installation skills with excellent levels of customer service - something we consider to be vital to ensure work gets completed on time and to a very high standard.

Extensive & Cost Effective Specification Options

As an independent company providing fencing solutions for educational, industrial, retail, sporting and high security applications; we work with clients to plan the optimum fencing system for each individual project. In this respect we aren't tied to any particular system, so the genuinely best solution is always the one we propose. As a major supplier, we are also able to buy materials at competitive rates from a wide range of sources, thus enabling us to offer very keen prices to our customers.

Nationwide Coverage

From our three sites in Leeds, Bedwas in South Wales and Brentwood in Essex, we offer a nationwide service for large projects to contractors, specifiers and end users.

Our Quality Commitment

We work to build long-term partnerships with our customers through providing high quality products, personal service and dependable scheduling. All our staff are thoroughly trained to support the products and services we offer. This culture is backed by audited procedures accredited to ISO9001. Procters is also a member of the FCA (Fencing Contractors Association).

Procter Fencing Service

Dependable nationwide service, providing high quality fencing products to specifiers, contractors and end users.

1. Technical Consultation & Site Survey

Our technical staff provide free consultation in the specification of the most suitable fencing products and gates to suit the customer's aesthetic, security and cost parameters, as well as scheduling deliveries to suit site programme requirements.

2. Custom Design Service

We are able to provide individually designed gates, railings and other steel fencing products to meet our customers' individual project needs.

3. Detailed Proposal

Fully detailed and costed proposals are provided from architects' designs or contractors' bills of quantity. Budget prices can also be provided.

4. Manufacture

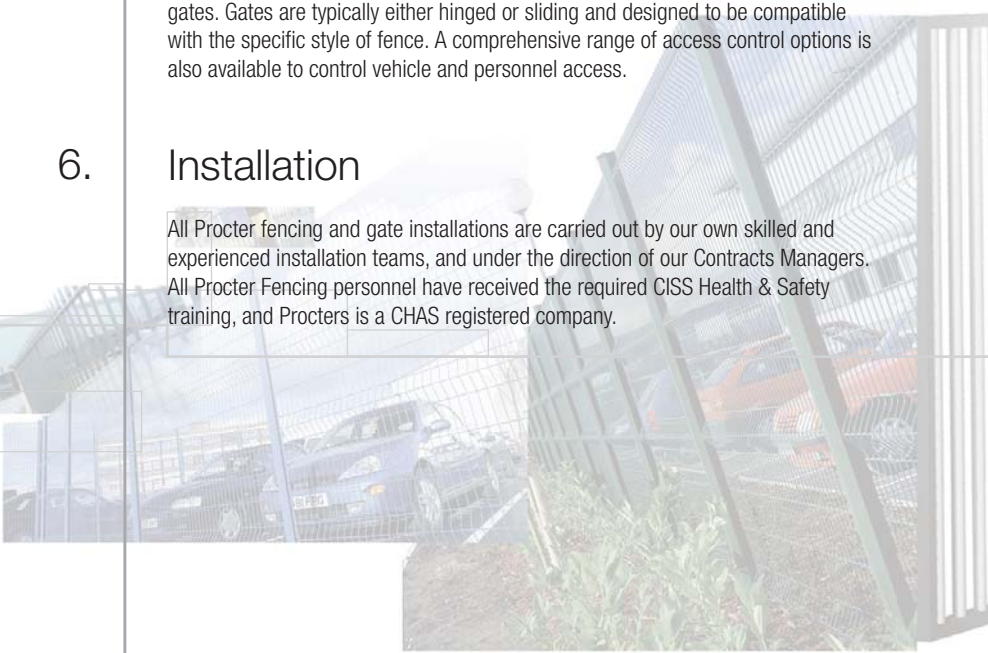

Our in-house manufacture facility enables us to manufacture exactly the product the customer wants and gives us control of delivery times to site. Fencing products can be Hot-Dip Galvanised to BSEN ISO 1461 and powder coated in a colour of the customer's choice to ensure a long-term durable and attractive finish.

5. Gates

For every style of fence, we can provide matching vehicle and personnel access gates. Gates are typically either hinged or sliding and designed to be compatible with the specific style of fence. A comprehensive range of access control options is also available to control vehicle and personnel access.

6. Installation

All Procter fencing and gate installations are carried out by our own skilled and experienced installation teams, and under the direction of our Contracts Managers. All Procter Fencing personnel have received the required CISS Health & Safety training, and Procters is a CHAS registered company.
